## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on January 25, 2006 has been entered.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

### ***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:  
  
The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
4. Claims 16-24 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 16 recites the limitation "said liquid product inlet opening" in lines 6-7.  
There is insufficient antecedent basis for this limitation in the claim.

***Claim Rejections - 35 USC § 102***

5. Claims 1, 2, 3, 5, 12, are rejected under 35 U.S.C. 102(b) as being anticipated by Bishop (5,356,076).

Bishop discloses a hose-end sprayer assembly comprising: a housing 13; a rotary valve 15; means 34 for defining a vent path; a closing means 29 that is pivotable about a member 30.

6. Claims 16, 17, 20, 22 are rejected under 35 U.S.C. 102(b) as being anticipated by George et al. (3,186,643).

George discloses a hose-end sprayer assembly comprising: a housing 20; a rotary valve 26; a vent path 90; means 92 for closing.

***Allowable Subject Matter***

7. Claims 18, 19, 21, 23 and 24 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

8. Claims 4, 6, 7, 8, 9, 10, 11, 13-15 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

9. Applicant's arguments filed January 25, 2006 have been fully considered but they are not persuasive.

Applicant argues that George et al. does not disclose a vent control means which is mounted on the housing. Claim requires that the vent control means be mounted externally on the housing. The vent control means 92 is mounted externally on the housing. Otherwise, it would not be able to close vent passage 90.

10. Applicant's arguments with respect to claim 1 have been considered but are moot in view of the new ground(s) of rejection.
